- All MBS seats are manufactured using premium and high quality orthopaedic foam.
- Smart control unit functions: 3 Level Back massage, 1 Level Base massage, Lumbar adjustment, Back width adjustment and Upper Back adjustment (Rear seat only).

FRONT SEATS

SMART CONTROL UNIT

All massage functions can be controlled through this unit, positioned conveniently beside each seat. The unit exudes a premium finish with backlit buttons.

POPLITEAL SUPPORT

This support provides enhanced leg comfort while driving with an increased width for popliteal support.

ELECTRONIC ADJUSTMENTS

All seat movement functions are controlled smoothly and electronically with easily accessible knobs.

ERGONOMIC HEAD REST

These ergonomic head rests offer both the driver and passenger a very comfortable driving experience.

REAR AUTOBIOGRAPHY SEATS

SMART CONTROL UNIT

All massage functions can be controlled through this unit, positioned conveniently beside each seat. The unit exudes a premium finish with backlit buttons.

LEG SUPPORT

The rear seat offers enhanced leg support for a relaxing and comfortable journey.

ELECTRONIC ADJUSTMENTS

All seat movement functions are controlled smoothly and electronically with easily accessible knobs.

CUSHIONED HEAD REST

The rear seat head rests are fitted with a cushion securely strapped on the head rest to provide a comfortable experience for passengers.

CENTRAL CONSOLE

LED LIGHTING

The central console is lit with a LED system, enhancing the ambient environment and offering a pleasant journey.

SAMSUNG SAFE BOX (OPTIONAL)

This optional safe box can be accessed with a secure key card and is located under the arm rest.

STORAGE COMPARTMENT

This additional storage unit houses additional cup holders and extra space.

LEG SPACE CONTROL

This button, located in the storage compartment, controls the movement of the front passenger seat to offer more leg room to the occupant seated behind.
